Maryna Strokal

Michelle van Vliet

Simon Gosling

Martina Flörke

Rafael Marcé

- **Develop a protocol(s) for "large-scale" water quality modeling**

- **Model intercomparisons:**
  - Robust pollution hotspots, their causes and impacts
 - Exploration of futures and solutions
  - Cross-sectoral focus

- **Some results of the water quality session of today (17 May 2022)**

What to do we already have?

What do we still need?

- A follow up event

- Four water quality webinars (online), to be announced soon
