# QA-tool hackathon

- 2.5 days workshop/hackathon
- Sep 12th (9:00) – Sep 14th (13:00)
- Utrecht University campus
- COST travel funds available

- Work on Q&A-tool
- Focus on global water cycle
- Hybrid set-up
- Goal: have a working version, with some documentation

Utrecht University

g.b.koren@uu.nl

PR CLIAS

- Use river station data to systematically evaluate model output

- Include total water storage anomalies (TWSA) from GRACE missions

- Score models on mean bias, but also other metrics, e.g. seasonality, IAV, etc.

- Proof-of-concept for other ISIMIP sectors

- Ideas, or interested in participating? Please reach out to us!
